

Felted Hearts

Resting your work on a foam or wool surface, fill a 1.25" Heart cookie cutter with tufts of wool (about 5" of wool roving), lightly poke it with your felting needle and continue to fill the cookie cutter all the way to the top. Continue poking for about 2 minutes, then flip it over and felt the other side. Remove it from the cutter-shape and gently poke around the edge. Take a thin strand of contrasting wool colour and poke along the fibres to make the desired letter. Thread a long needle with embroidery cotton and string your hearts together to form a garland. Enjoy!
